TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased
2) All bids are per lot as numbered in this catalog
3) We reserve the right to withdraw any lot prior to sale.
4) All successful bidders shall be billed for postage, handling and insurance
5) R M SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
6) A SMYTHE auction bidder expressly waves any claim or right to an accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
9) In the case of a tie between a mail bidder on the book and the floor, the mail bidder shall take precedence.
10) All bids must be in whole dollar amounts; this includes percentage increases.
11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1½% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their bids in advance.
14) Title does not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
17) SMYTHE may reopen the bidding on a lot under the following circumstances. 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
18) In the event of dispute, the auctioneer's decision is final

GUARANTEES AND RIGHTS OF RECOVERY

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
21) All material in this catalog is guaranteed to be genuine unless otherwise described.
22) No lots may be returned by floor bidders except for non-authenticity.
23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or thirty days from the auction's last day, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consumated. If the item is not authentic, the sale price will be refunded.
25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
28) All accounts are payble to SMYTHE in U.S. funds and remittances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales, catalogs or other monies due to SMYTHE.
29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

Estimates & Reserves

With the exception of United States coins, we have endeavored to include estimates on each lot. These estimates are our conservative opinion as to what we feel a lot may bring. Prices realized may be higher or lower depending on wholesale and retail market conditions at the time.

While the bulk of the items offered in this sale are unreserved, items indicated by a "★" in front of the estimate are reserved at the lower price indicated. For example, an item with an estimate ★**($250-Up)** is reserved by the consignor at $250.00. If there are no mail bids for the reserve price or greater, the lot will be opened to floor bidders at the reserve price. If there is no bidding response, the lot will be "passed".

Where non-published reserves exist, the auctioneer may make bids in response to others. Consignors are not permitted to bid on their own lots from the floor. R. M. Smythe & Co. reserve the right to include our own material in this auction as well as to bid on any item in this sale. R. M. Smythe & Co. has advanced money (where requested) to consignors and in addition has agreed to advance money to purchasers who have established credit in advance.

CONDITION TERMINOLOGY FOR PAPER

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.
Choice Unc. (Choice Uncirculated) - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.
Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.
Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.
AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.
EF (Extremely Fine) - An item which may, at first glance, look uncirculated, but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.
VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.
F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.
VG (Very Good) - A well-circulated item, complete, unimpaired except for petty tears and splits, pin holes, some surface splitting along heavy folds and soiling.
Good - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.
Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.
Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.
Abt (before a grade) - A shade below the grade it precedes.
Plus or + (following a grade) - A shade better than the grade.
VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.
VF/Good (slash between two grades) - Face and back are two different grades. The grade preceding the slash is for the face. The grade following is for the back.

This historic issue was struck during Algeria's war with France, prior to its annexation by that country in 1848. This specimen has full borders on both sides, being well struck around the periphery, but a bit weak at the center. It is lightly toned, commensurate with the billon issue of this era. China

1358 **Rare Chinese Silver Cash.** Issue of Sheng Tsu (1672-1722 AD), Peking Board of Revenue. **Fine-VF.** **(Photo)** *($100-500)*
Extremely Rare in silver; weight 4.8 Grams.

1359 **Chinese Stone Cash Coin Mold.** *($200-Up)*
A hand carved stone cash coin mold, measuring 140mm by 180mm and 20mm thick, weighing 480 grams. A large piece is broken off diagonally between the third and fifth row of the cash "tree". Appears to be of the type used to produce five chu cash of the eastern Han Dynasty (25-221 A.D.). Obverse with "WU CHU", with the rectangular form of characters. A fascinating, undoubtedly old artifact. However, we cannot guarantee that it dates from the exact period of antiquity that it purports to be. Therefore **Sold As Is; No Returns.**

1360 **Attractive Group of Large Chinese Cash and Amulets.** [c125] *($400-Up)*
A varied selection of almost all larger size cash coins and charms; over 20 are 50mm or larger and there are three large size spade-shaped coins. The majority of items are c1900, however some older, genuine coin issues are included. An exhilarating variety of styles and types. Total weight over 10 pounds. A grouping that should be seen by the serious specialist. Condition **Fine-VF,** many with attractive, deep patina.

1361 ♦**Important Group of Older Cash Coinage, Primarily Chinese.** [c500] *($250-Up)*
This grouping, which should be carefully screened by the specialist, consists primarily of bronze cash coinage, with some iron pieces included. Many early and scarcer types are represented. Average Grade **VG-Fine,** the majority are patinated.

1363 ♦**A Third Group of Chinese Cash Coinage.** [c1000] *($300-Up)*
Another well mixed group of smaller Chinese Cash coinage, spanning all periods of production, but more concentrated to the 1600 A.D. and later period. Generally **Fine-Very Fine,** some **Unc.** machine struck pieces. As before, should be seen by the specialist.

1364 **Chinese "Elm Leaf" Cash From the Han Dynasty.** [c100] *($200-Up)*
Approximately 85 small cash (c.1 gram each), on a string. Produced in response to the proliferation of forgeries of the larger, previous "Pan Liang". These were demonitized in 179 B.C. Similar to Mitchiner-S399 et al; optimistically valued therein at £8 each. Also included about 25 modern Chinese coins, worth $20 wholesale.

Egyptian Rarities

1368 **Egypt:** Abdul Hamid II. (1876-1909AD). AH1293, Year 5. **Silver 20 Para.** KM-276, YB-17). A **Very Rare** Type. **Extremely Fine.** **(Photo)** *($500-Up)*

This very rare type coin in silver was only issued four years and this last year of issue is the rarest. Copper-nickel coinage of the same denomination was issued in some 50 Million examples; conversely these equal denomination silver pieces were issued in very low numbers. This example grades **Extremely Fine**, and is rather well struck with all of the obverse border dots and 90% of the reverse teeth struck up. The centers are extremely bold, the coin has excellent color for this issue; a very light reverse scratch in the upper right field is mentioned for accuracy and future identification of this specimen. Catalogs $750.00 in the current Krause-Mishler; arguably worth more.

1369 **Egypt:** AH 1277, Year 4. **10 Qirsh.** (KM-256). Evenly worn and pleasant **VF** for the type. A very rare three year type. Slight edge flaw. **(Photo)** *($300-Up)*

This rarity from the popular "Semeuse" type is unlisted in the current Krause-Mishler reference, but is listed in Gadoury as No. 467P. Certainly fewer than 100 minted, and of that probably fewer than two dozen survive. This lovely specimen, graded by PCGS, has satiny white surfaces and is virtually unimprovable. This post-series rarity has not been seen before by this cataloguer. Current Gadoury catalogue value is 3,500 French Francs.

1374 **France:** 1821A **2 Francs.** Craig-180. Unpriced in **Unc.** in KM. Graded rather severely as **MS-60** by NGC, the coin is glossy gun-metal toned **Uncirculated**, with blue-green highlights, and very pleasing surfaces. **(Photo)** *($500-Up)*

1385 **Mecklenburg-Schwerin.** 1786 **2 Schilling.** Cr. 62, Sch. 57. **Choice Proof-like Uncirculated,** light golden toning. **(Photo)** *($200-Up)*

This splendid one year only type coin of Friedrich Franz I (1785-1837) is the last year of the denomination and thus the only ever made for this king. Only 18,000 were struck. The coin lists at 350DM in Sehr Schon (American grading: **VF+**) in the 1984 edition of the Schon catalog. Worthy of a very strong bid by the German States specialist; for this coin is virtually unimprovable!

1386 **Nurnberg Silver Minor Coinage.** A fine, small collection, with several interesting types and high grades. [18] **(Photo)** *($500-Up)*

Reference is made to Kellner *Die Munzen der Reichstadt Nurnberg* (Stuttgart, 1991). 1-2) **2 Kreuzer.** 1622 Billon "Kipper" coinage. Kellner-194 in billon. This "sleeper" type is unpictured in Krause (where it catalogues $50). On the other hand, it catalogues for 600DM (in very fine) in the definitive Schon German catalog. This piece is superior in condition to the pictured coin in that reference. An opportunity for the specialist to obtain a grade and type rarity.

Great Three Pence Rarity

1402 **Great Britain:** 1765 **Three Pence.** Currency Issue. Seaby-3753. **Extremely Fine,** well struck, attractive steel color and perhaps slightly better. **(Photo)** *($750-Up)*

According to *The English Silver Coinage,* Rarity Five (5-7 Known). Whereas the 1762 and 1763 issues are quite common, it appears that only a handful of 1765 small silver coins were struck at all; the Penny being entirely unknown today. We present a chance to purchase a true rarity at a fraction of what a comparable American coin would cost.

Bank of England 1804 **bronze pattern Dollar** on very thick planchet, E.S.C.-164A. Graded **Proof-63** by **NGC. Extremely Rare.** The coin is a lovely chocolate brown, and possesses a razor-sharp strike and virtually mark-free surfaces. Would fit comfortably into the finest collection of British or European crowns; also well-suited for the investment minded.

1406 **Superb British Victoria Young-Head Crown. (Photo)** *($750-Up)*

1845 Crown. Youthful bust by Wyon, left / Arms. Lettered edge. Seaby 3882. While common when well used, examples comparable to this **Uncirculated** rarity are few and much coveted. This coin exhibits vibrant luster on frosty white surfaces, and is fully struck. Some minor field hair lines and minuscule handling marks are present, but there are none of the usual unsightly rim problems or significant bag marks. Overall, a very charming and attractive coin; perfect for an ambitious type set or crown collector.

1425 **Identified Silver Mogul Rupees and Smaller Coinage.** [59] *($250-Up)*

An extremely desirable collector's type lot of **mainly rupee-sized silver** coins from the Mogul **Empire** and successor states; most from 1760-1850. All have been identified. There are fewer than a dozen smaller denomination coins. A fascinating cross section of these issues: the possibility of several scarce examples is more than likely. Condition averages **Fine** or better. Possibly worth far over estimate to the informed specialist.

1426 **Unattributed Indian State Silver Dump Coinage.** [46] *($200-Up)*

This group contains a fine assortment of unattributed type **Rupees** (28) and Fractional coins (18) from the Mogul Empire and successor states. Almost all the coins are choice **Fine-VF** for the types and upon close examination by serious potential bidders, should see some spirited competition.

1427 **Archaic Indian, Ceylon and Indo-Persian Silver Coins.** [c230] *($300-Up)*

This very mixed group of includes approximately 85 Archaic Indian types with good style Bull/Horsemen, Western Satraps Drachms, Indo-Sassanian Drachms etc. Nearly all have been identified and should be worth $400.00 or more retail. Also there are sixty-four billion Ceylon Drachms, c.1200 A.D.; some have been identified. Finally there are about ninety good silver Indo-Persian Drachms; many are well worn and/or holed. Condition fairly typical to the types. A lot that demands close inspection.

1429 ♦**Indian States Base Metal Coinage.** Good study lot, with many coins attributed to types. [c330] *($250-Up)*

This very difficult to assemble grouping is an ideal primer for the study of Indian States base metal coinage. Many of the pieces have been attributed with specialized references such as BMC. The lot includes approximately 180 pieces of Archaic items from c.250 B.C. to the early 19th Century, with some lead coinage c.100 B.C. as well; many better pieces are evident. Also contains c.100 other more modern states pieces, some better. Finally a third small group (about 50) of unattributed machine struck coins, with duplication. Overall condition average for the types. Should be seen.

This cache of almost all unattributed sub-continent thick bronzes affords an excellent opportunity for the study of these issues. Libyan Rarity

1452 **A Libyan Discovery Sub-Type 40 Para.** **(Photo)** *($400-Up)*
40 Para. KM-215 Variety. AH1223-21 (AD1800) under Yusof Pasha Qaramanli. Mint name Tarabalus Gharb (Tripoli West). Krause-Mishler notes that the billon coinage of Libya is extremely varied. Please see page 1342 in the 1994 edition for a detailed discussion. This example varies from the main type illustrated therein in the following ways: 1) Very wide borders, giving the appearance of a presentation strike. 2) "Zuriba Tarabalus" (Struck Tripoli) is written neatly under the character "Fl" (In) rather than crudely on three lines in the KM plate. 3) The general caligraphic and ornamental style is much finer. This specimen, weighing 10.3 Grams, is preserved in a Virtual **Mint State**, very lightly toned, and displaying a uniform light yellow-green color over white luster. Priced as a date in KM at $225.00 in **VF**; this rarity as a sub-type or presentation striking should see very spirited bidding.

1453 **Low Countries and Related Coins.** A good mixed lot for the collector. [c70] *($400-Up)*

Brekke 205; Michailovitch 704 (assez rare). **Choice glossy brown Unc** with a trace of red. Extremely rare. Should be snatched up by the serious collector as this type very seldom appears for sale. Philip Ludwell, c.1650-1704, was a member of the Virginia Council on and off 1674-1687, was secretary to Governor Sir William Berkeley, and helped suppress Bacon's Rebellion by capturing two of its leaders. He was subsequently made the Governor of North and then South Carolina 1689-1693. His inability to reconcile the conflicting interests of the colonists and the Lords Proprietor of the Carolinas (an impossible task) led to his dismissal by the Proprietors, who expected him to back them in all their dealings. Ultimately, the Crown has to take over the Carolinas in 1729. Ludwell's daughter by Lady Francis Berkeley, Sir Williams' widow, was the ancestor of the Lees, Richard Henry, Francis Lightfoot and Thomas Ludwell, who played a strong role in the Revolution.

William Berkeley Lewis (1784-1866) was a personal friend of Andrew Jackson's and served as his quartermaster during the war years, 1812-1815. Lewis was later 2nd Auditor of the United States Treasury, being a prominent supporter of Jackson and Van Buren. He was also a member of Jackson's "Kitchen Cabinet". An **Extremely Rare** item that is difficult to estimate, as it should be of immense appeal not only to the serious collector of War of 1812 fiscal items, but also to the serious Andrew Jackson buff.

The Maryland Colonization Society was set up to help freed slaves to return to Africa and establish themselves along the coast of Liberia. Because of a lack of interest in migrating and a shortage of funds, very few people moved to Liberia. The notes were redeemable in Liberia and were probably intended to be used as passage and arrival money for the migrants.

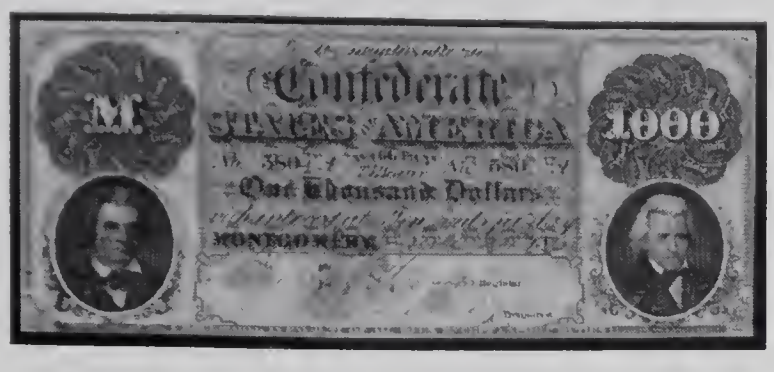
Confederate States of America

1861 Montgomery Issues



2401 **$1,000.** (Cr.1). T-1. No.580. This note is POC with two small and four large holes in the signature block; it was twice hit with a bank hammer and has paper strip repairs on the back with associated glue stains. Otherwise this is a **VF-EF** note. **(Photo)** *($3500-Up)*

There is a blue bank stamp on the back of the State Bank of Georgia at Savannah stating the amount of interest paid together with the signature of George Cuyler, the cashier. Note that the interest called for was $42, not $420 as on the stamp. Slightly less than 100 of these notes are known to exist.

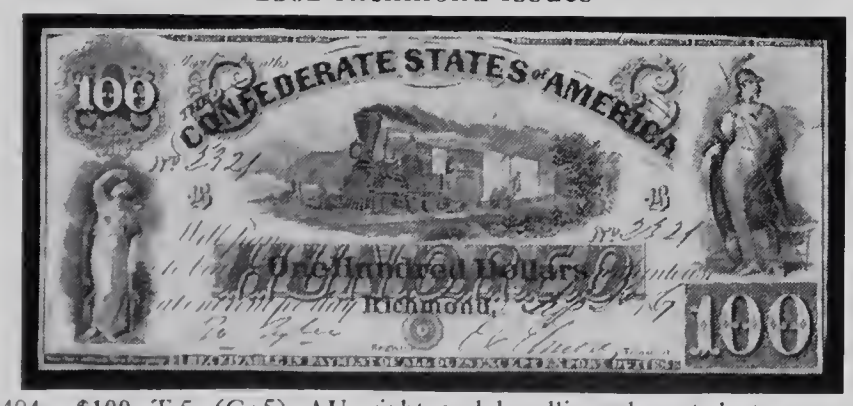
2402 **$100.** (Cr.3). T-3. No.1441. **Abt VF,** seven or so folds. The margins and color are good, but there is ink bleed through from the back. **(Photo)** *($2000-Up)*

On the back, there is an issue notation of Anthony J. Guirot, Assistant Treasurer, CSA at New Orleans, dated June 26, 1861. On the bottom is a payment notation, written by F,N. Hatch, CSA collector of customs at New Orleans, dated July 20, 1861 stating that 25¢ of interest was paid. This shows how much wear one of these notes could get in the short space of 25 days before it was redeemed. About 120 of these notes are known to exist by number.

2403 **$50.** (Cr.4). T-4. No.1315. **Fine,** plus, good margins, some teller soiling on the left and right edges. **(Photo)** *($1800-Up)*

There is a Guirot issue notation for June 8th, 1861 on the back. There is also the stamp of "Hohenthal Reichman O K" at the back bottom. **Ex Ball.**

1861 Richmond Issues



2404 **$100.** T-5. (Cr.5). AU, right end handling, decent, but uneven margins. **(Photo)** *($400-Up)*

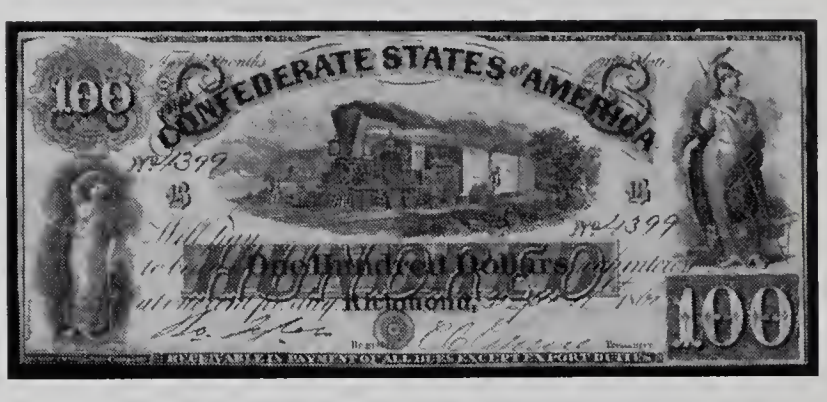
There is a back issue notation by a Confederate quarter master at Memphis, TN on September 13, 1861. The borders are complete, the color sharp. Note the sharp detail, on inspection, including the Medusa head in profile on Athena's shield at the right.



2406 **$100.** (Cr.5). T-5. No.4399. **AU,** decently margined, would readily pass for **Uncirculated,** but for traces of teller handling on the back. Just a shade darker than the preceding note. **(Photo)** *($350-Up)*

2407 **$50.** T-6. (Cr.6). **AU,** light center fold, trimmed at the bottom. Bright and vivid, a lovely type note. **(Photo)** *($300-Up)*

Act of May 16, 1861

2409 **$100.** T-7. (Cr.10). No.16486. **F-VF,** ten or twelve folds, back soiling, complete borders. The face looks far better than the grade would warrant. *($200-Up)*

2410 **$100.** (Cr.12). T-7. No.23889. **Fine,** soiled on both side edges and the right border trimmed at the top. *($150-Up)*

T-9. **VG,** rather aged,. a piece out of the top left corner and two COC holes in the bottom edge. 4) **$10.** (Cr.40). T-10. No.23397. **VG,** some staining. Nice for this scarce variety.

2412 **Assorted Confederate Type Notes.** [9] *($270-Up)*

1) **$50.** T-8. **Fine,** soiling. 2) **$20.** T-9. **Fine,** the top left corner tip is torn off and there is soiling. 3) **$100.** T-13. A Pair of Choice T-15 Notes

Notes number 1-1800 were issued on August 26, 1862. The original notes came without a "the" over Confederate and with only 18 engraved in the date at the top right. Apparently the number of plate one error notes is smaller than had been thought, as notes as low as 1000 and over 1800 have appeared with the August 26th date and with the plate 1A corrections.

2436 **$100.** T-56. (Cr.402). Trash remainder with signatures, without date stamp or stamped numbers, the numbers being hand written. **F-VF,** staining. **Possibly Unique.** *($200-Up)*

This note, with its two long printing fold voids on the back was almost certainly rejected and discarded as trash. Someone feloniously abstracted this note from the trash, filled it in and circulated it. The official correspondence of the Confederate Treasury records that at least two slaves who were responsible for cleaning up the printing room at Keatinge & Ball's establishment in Columbia, SC were caught giving such notes to persons outside the office, in exchange for real money.

Sutler Notes

2440 F. POPPER & Co., Sutlers, 152nd Regiment, New York Volunteers. **5¢.** (CD-5A). Similar to the Schenkman piece noted, but a wasp on the back. Unfolded, light edge wear. *($180-Up)*

The 152nd had a mixed War. It first appears in April 1863, when it was part of General Dix's command, the Department of Virginia, in fighting around Suffolk County Court House. It was then commanded by Col. Alonzo Ferguson. To protect Washington during the Gettysburg campaign, it was ordered to a position south of the Potomac. Subsequently, it was transferred to New York City after the July, 1863 Draft Riots, and used to protect the Provost Marshal offices, where the draft call drawings were being conducted. In December 1863, it was back in Washington, and shortly after became part of the Army of the Potomac, under Major Timothy O'Brien. As part of the Second Corps, Second Division, Second Brigade, it fought in the Spottsylvania, Wilderness, North Anna, Cold Harbor and Richmond campaigns, where it lost 169 men out of 460 persons assigned to the unit. The unit was routed in a Confederate counterattack on June 22, 1864, when the third division allowed the enemy to break through and take the regiment in the front, flank and rear. The unit served until after Lee's surrender at Appomattox, when it was disbanded.

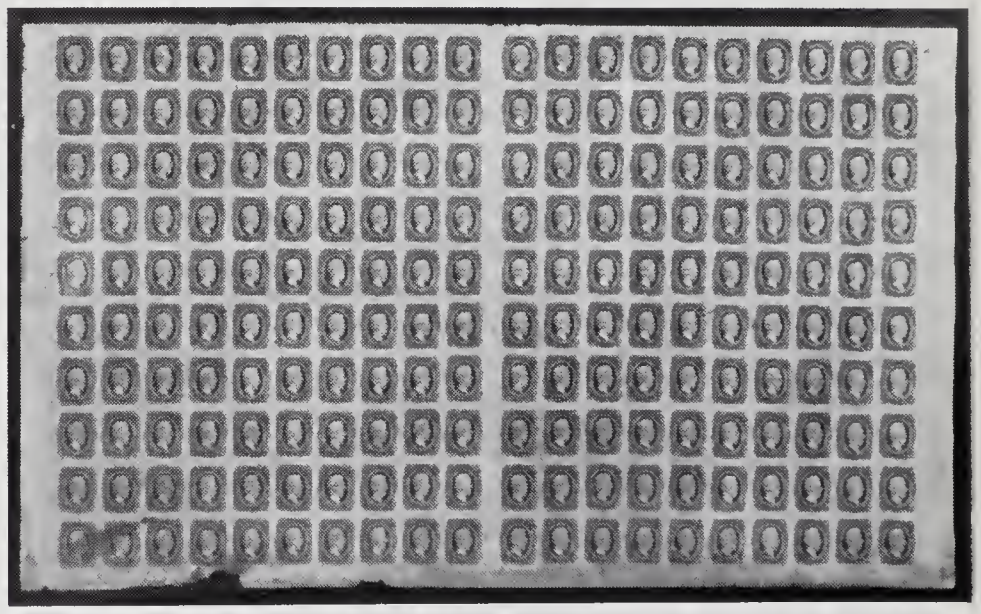
There is a pencil notation at the left that this sheet was once the property of the great French stamp collector, Count Ferrari. The French Government confiscated the collection as an enemy asset and broke it up after the war.



2447 **Double Pane Sheet,** Confederate stamps. **10¢.** No.11. "KEATINGE & BALL, BANK NOTE ENGRAVERS, COLUMBIA, S.C. No.1". **VF,** but a piece out of the bottom edge, ink stains etc. **(Photo)** *($1500-Up)*

The printing contract for the stamps and the 50¢ type 72 notes was taken away from Archer in August of 1864 and the workmen and their equipment were sent south by rail in September 1864, arriving at Columbia to be set up at the end of that month. The stamps and notes continued to be made at that point until Sherman seized that city in February 1865.

Federal Postal Drafts and Warrants

All U.S. Government Warrants of the post-Civil-War era are rarely encountered because almost all are locked up in the government archives. We have handled less than two dozen of these in the last fifteen years in any form. Issued drafts or warrants are prohibitively rare. Of the five lots that follow, one is fully issued and uncancelled. The other four are archive specimens, most likely from the archives of the National Bank Note Company, where they were kept for comparison purposes or as models for changes that had to be made in the designs or text of later issues.

The history of this issue, of what may be the first Jewish money emitted in modern Palestine, is briefly this. In November 1914, the Ottoman Empire entered the First World War as an ally of the Central Powers, Germany and the Austro-Hungarian Empire. The Anglo-Palestine Company, Ltd. was clearly of British origin, and the Turks were not long, given their lack of funds, in coming to seize the Bank's assets. All they got were some worthless books. Given the corruption endemic among the Empires' officials and the fact that these circulating checks have Turkish stamps upon them, it seems likely that the bank officers came to an understanding with the authorities which allowed them to continue in business, albeit in a quasi-clandestine manner. The company was thus in a position to help out the members of the still small Jewish community, whose businesses were seriously disrupted by war shortages and established trading partners.

Signed "Stirling" by William Alexander (1726-1783) soi disant 6th Earl of Stirling. Denied the succession to his kinsman, the 5th Earl, because of his family's Jacobite activities, Alexander returned to America in 1759 and assumed the title in defiance of the British. His fellow Americans backed his pretensions, hence his signature as "Stirling". Well educated and wealthy, he was a prominent businessman before the Revolution. His enthusiasm for the patriot cause led William Franklin, Ben's son and the last royal governor of New Jersey to purge him from the provincial council. Stirling reposted by forming the first regiment of the Jersey Line. He boldly sailed into New York harbor and seized a ship under the nose of the British Navy. For this Stirling received the thanks of the Continental Congress, was made a general and did good service during the war. His valor and skill in a rear guard action saved Washington's army during the battle of Long Island. Unlike many others, he shared his troops' hardships at Valley Forge. In 1777, he handled the artillery with such skill at the Battle of Monmouth as to turn seeming defeat into a victory. He then had the satisfaction of presiding over the court martial which led to the cashiering of General Charles Lee, who had not only disparaged Stirling's title but his military competence. Subsequently, Stirling also presided at the trial of the British spy, Major Andre, and played a key role in thwarting the Conway Cabal, a plot to dismiss Washington as Commander in Chief in favor of the incompetent Horatio Gates. At his death in 1783, Washington paid great tribute to his contributions to the American cause.

Choice Additional Consignment of Obsolete Currency

6418 **AL:** BANK OF SELMA. **$5.** (G-2a). Bright Or OP. **Choice Uncirculated.** *($60-Up)*
This note when encountered is normally seen in Verg Good or so condition.

6419 CALIFORNIA, NEW YORK & EUROPEAN STEAMSHIP COMPANY. **$50.** 1859. Archibald McLees, New York. Light orange tint. **U. VG,** or a shade better; two top edge tears and darkening in one of the unfolded quadrants. **Rare. (Photo)** *($150-Up)*
Payable in gold, freight or passage. The date is within the light tint plate. We have only seen or handled a few of these in the past ten years.

6420 **CT: East Haddam.** BANK OF NEW ENGLAND. **$2.** (CT-109-A-5). **AU,** exceptionally clean and choice for an altered note. *($60-Up)*

6421 **MA: Boston.** TRADERS BANK. **$1.** (A-5, **SENC**). Altered from the Thames Bank, Laurel, IN. **AU.** *($75-Up)*
Hoodlums engaged in the art and thievery of passing fraudulent notes would have to pre-circulate them in order to rid the note of characteristics that would be obvious to the general public such as the area around the altered bank title. On this note the alteration is quite apparent. High grade altered notes are rare because of this and generally turn up in holdings such as evidence packets from court room proceedings involving contemporary counterfeiters.

6422 **New York.** NEW YORK EXCHANGE BANK. **$10.** (S-5). **Fine,** light aging. *($75-Up)*

6423 **SC:** BANK OF HAMBURG. **$5.** (G-4a). Bright Or OP. **Choice Uncirculated,** two hinges on the back. *($60-Up)*
